Brentwood CA 94513 | (925)-325-8895 | josephrios56@gmail.com

Full-Stack Developer with a passion for beautiful UI and flawless back end work. Hobbies include working on side projects related to e-sports and fintech, while also furthering skills by learning new stacks to keep up to date with the latest technologies.

#Skills

Languages - JavaScript ES6 | Ruby | Python | C++

Front End - HTML5 | JSX | XML | CSS3 | React | Jade | Angular JS | Bootstrap | Material UI

Back End - Django | Node.js | MySQL | Express JS | AWS | MongoDB | RESTful APIs

State Management - Redux | React Context | Props | React Hooks

#Professional Projects

Paw Prints (<https://pawprints.netlify.com/> | <https://github.com/Paw-Prints>)

Website that helps users find dogs for adoption at local shelters near you with a breakdown of ownership cost.

React App | Node.js | Express.js

- Created Paw Prints within 48 hours during TechCrunch's 2019 Disrupt SF Hackathon event.
- Full stack developer of a team of 4, including one project manager.
- Created an algorithm for data cost analysis across 10 dog breeds.
- Integrated Petfinder API, to get access to nearby shelters.
- Created an open source API so anyone can use our dog cost analysis.
- Used git flow to work together as a team.

Quizzer (<https://quizzer.netlify.com/> | <https://github.com/labs13-quizzer>)

Website that teachers can create a quiz with follow-up questions for a student to practice topics they need help understanding.

React App | Node.js | Express.js | SQLite3 | PostgreSQL

- Created Quizzer in a month-long project at Lambda School.
 - Full stack developer of a team of 6 consisting of one android developer, one project manager, and one UX developer.
 - Created Student and Teacher views with their own unique dashboards.
 - Included Redux for state management, while also implementing React hooks.
 - Coordinated closely with UI/UX Designer to follow exact mockups.
-

#Experience

A&B Electric | Electrician

May 2016 – Feb 2019 | San Ramon, CA

- Worked closely with homeowners and project managers, to get exact specs correct for all electrical outlets and lights.
 - Worked under hard deadlines and completed tasks always before deadline was met.
-

#Education

Lambda School | Certificate in Web Development and Computer Science

Feb 2019 – Sep 2019: Remote

- Completed Exit HackerRank Challenge and passed both exit technical interviews.

Diablo Valley College | Computer Science for Transfer | 48 credits

Aug 2016 – Dec 2018: Pleasant Hill, CA

- Honor student during Fall through Spring semesters of 2017 and 2018.
- Completed all Computer Science course for degree and up to 60% of math course.
