CSS / SASS / LESS	Express / AWS	Github	Angular JS	Prototyping
HTML / XHTML / Jade	RESTful / mongoDB		User Stories	React Hooks / Router
Gulp / Webpack			Bootstrap	Material UI
Python / Django				

#Professional Projects

Crypto Look

Full stack Project | React App

ﺑFull stack project hosted on netlify, with features looking to be added.

ﺑIntegrating React with our backend in an elegant way, creating a great workflow

ﺑBuilding our frontend in React to work with the API by Cryptocompare

ﺑUsing React Context for state management

ﺑGitHub - https://github.com/josephriosIO/crypto-dashboard

ﺑDeployed Link - https://cryptolook.netlify.com/

Quizzer

Full Stack project | Lambda Labs

ﺑFull stack project with a team of 6.

ﺑAPI-based backend written in Node.js with Sqlite3 and postqresSQL.

ﺑExecuted React & Redux front-end in ES6, with Hooks.

ﺑCoordinated closely with UI/UX, Design, and QA. Prototyped and Wireframed.

ﺑGitHub - https://github.com/labs13-quizzer

ﺑDeployed Link - https://quizzer.netlify.com/
